Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis:

The protection of California's water is crucial to all of us. I hope you will help ensure through the CALFED program that we invest in water efficiency for at least seven years before considering new dams or reservoirs; restore our rivers, bays and fisheries; improve water quality by enforcing pollution limits; and stop making taxpayers pay for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Please ensure the protection of our rivers, bays and drinking water.

Sincerely,

Arlen Grossman
